Audio Conferencing

Effective communication is required to do good business, and audio conferencing is the best way to get everyone on the same page. BT offers two types of services: self-managed and managed. Both come with a variety of features delivered by our expert support teams.

BT Conferencing MeetMe

BT MeetMe is an easy-to-use, self-managed audio conferencing service that allows you to connect people from around the world instantly. BT MeetMe offers reliable audio conferencing for internal team meetings and everyday calls to clients.

BT MeetMe with Dolby Voice is an enhanced, all-new BT MeetMe service that delivers pristine sound and voice separation. With Dolby Voice, your remote meetings can sound like they would with everyone seated around the same meeting room table. BT MeetMe with Dolby Voice is perfect for: workshops, brainstorming sessions, and executive & project management calls that require a fully engaged audience and active participation by all.

Managed Event Services

BT Premium Event is a premium, managed service that is ideal for larger-scale gatherings, such as results presentations and shareholder meetings. With BT Premium Event, you have a guaranteed line for as many people as you need - plus, you can create a more interactive calling experience with features like: voting systems, Q&A management tools, and live video streaming.

Every BT Premium Event is recordable, totally secure with strict attendance controls, and every Premium Event comes with 24-hour support, any day of the year. Our local access numbers make it easy to join a BT Premium Event from over 50 countries.
